AMOUNT BY GENDER

INSIGHT:-

- 1) Trader has most transaction of all the occupation with almost 554,000 while lawyers are shown to have the least transaction of this analysis
- 2) Analysis shows that the customers with failed transaction has an average age of 30.14 years and FEMALE dominating with 65.56% of the population
- 3) Male dominate the weekly transaction with 66.56% and first bank and Zenith bank has total sum amount for failed transaction over the first quarter of 2023 of the sampled 14 banks
- 4) I will advise on initiation of money transfer with fingerprint which would at least bring about reduction to failed transaction caused by failed access from network provider or bad network from commercial banks
- 5) The southern region has the highest average failed transactions while the WEST has highest failed transaction through POS and BANK APP respectively.
